Healthcare Ecosystem Management Platform

Business Requirement Document (BRD)

Prepared For: Healthcare Ecosystem Management Platform
Prepared By: Founder Code Technology Pvt. Ltd.

---

1. Project Overview

The Healthcare Ecosystem Management Platform is a unified healthcare network designed to connect Patients, Doctors, Pharmacies, Pathology Labs, Blood Banks, Diagnostic Centers, Ambulance Services, and Healthcare Service Partners through a centralized digital platform.

The platform enables patients to access healthcare services from a single application while healthcare providers and service partners can efficiently manage their operations through dedicated portals and partner applications.

The project will be developed in two phases.

PHASE 1

Core Healthcare Services Platform

Objective

To provide patients with access to essential healthcare services including doctor consultations, medicine ordering, pathology bookings, blood bank services, diagnostic bookings, and ambulance assistance through a single platform.

---

1. Patient Mobile Application

Registration & Profile Management

Features

- Mobile Registration
- OTP Verification
- Personal Profile Management
- Aadhaar Number Update
- ABHA Number Update
- Address Management
- Profile Photo Management

Doctor Consultation Module

Features

- Doctor Search
- Specialty Wise Search
- Doctor Profile View
- Online Video Consultation
- Appointment Booking
- Appointment Rescheduling
- Appointment Cancellation
- Consultation History
- Prescription Download
- Follow-Up Booking

Medicine Booking Module

Features

- Medicine Search
- Prescription Upload
- Medicine Ordering
- Online Payment

- Order Tracking
- Delivery Status Tracking
- Order History
- Invoice Download

Pathology Lab Booking Module

Features

- Test Search
- Test Package Selection
- Home Sample Collection Booking
- Slot Selection
- Booking Confirmation
- Report Download
- Test History

Blood Bank Module

Features

- Blood Availability Search
- Blood Group Search
- Blood Request Submission
- Emergency Blood Request
- Request Tracking
- Blood Request Status

Diagnostic Center Module

Features

- Diagnostic Center Search
- MRI Booking
- CT Scan Booking
- X-Ray Booking

- Ultrasound Booking
- ECG Booking
- Appointment Scheduling
- Report Download

Ambulance Module

Features

- Emergency Ambulance Booking
- Scheduled Ambulance Booking
- Live Driver Tracking
- Driver Contact
- Trip Tracking
- Booking History

Wallet Module

Features

- Wallet Recharge
- Wallet Balance
- Transaction History
- Service Payments
- Refund Management
- Wallet Statements
  Credit wallet by admin
  Credit transaction history

Notification Module

Features

- Appointment Reminders

- Booking Notifications
- Order Updates
- Report Availability Notifications
- Ambulance Updates
- Push Notifications
- SMS Notifications

---

2. Healthcare Partner Application

The Healthcare Partner Application is a role-based mobile application designed for all healthcare service providers and field service partners.

Users will log in using assigned credentials and access modules according to their assigned role.

Doctor Module

Profile Management

- Doctor Registration
- KYC Verification
- Profile Management
- Qualification Management
- Specialization Management

Appointment Management

- View Appointments
- Accept Appointments
- Reschedule Appointments
- Cancel Appointments
- Follow-Up Management

Consultation Management

- Video Consultation

- Patient History View
- Consultation Notes
- Digital Prescription Creation

Earnings & Reports

- Earnings Dashboard
- Consultation History
- Transaction History

Medicine Delivery Module

Order Management

- View Assigned Orders
- Order Acceptance
- Pickup Confirmation
- Delivery Status Updates

Delivery Operations

- Route Navigation
- Customer Contact
- Delivery Verification
- OTP Verification

Performance Management

- Delivery History
- Earnings Tracking

Sample Collection Module

Collection Management

- View Assigned Collections
- Collection Acceptance
- Collection Scheduling

Collection Operations

- Route Navigation
- Sample Collection Confirmation
- Collection Status Updates

Performance Management

- Collection History
- Earnings Tracking

Ambulance Driver Module

Emergency Request Management

- View Ambulance Requests
- Accept / Reject Requests
- Emergency Priority Requests

Operations Management

- Live Location Sharing
- Route Navigation
- Patient Pickup Confirmation
- Trip Completion

Performance Management

- Trip History
- Earnings Dashboard

Blood Bank Module

Inventory Management

- Blood Inventory Management
- Blood Group Availability
- Blood Stock Updates

Request Management

- View Blood Requests
- Emergency Blood Requests
- Request Approval
- Blood Dispatch Tracking

Reporting

- Inventory Reports
- Request Reports

Diagnostic Center Module

Appointment Management

- Appointment Scheduling
- Appointment Tracking
- Booking Management

Service Management

- MRI Management
- CT Scan Management
- X-Ray Management
- Ultrasound Management
- ECG Management

Report Management

- Report Upload
- Report Approval
- Patient Report History

---

3. Pharmacy Management Portal

Features

- Medicine Inventory Management
- Stock Management
- Batch Management
- Expiry Tracking
- Order Management
- Prescription Verification
- Billing Management
- Invoice Generation

---

4. Pathology Lab Portal

Features

- Test Management
- Package Management
- Sample Collection Management
- Booking Management
- Report Upload
- Report Approval

---

5. Blood Bank Portal

Features

- Blood Inventory Management
- Blood Availability Management
- Blood Request Management
- Emergency Request Management
- Dispatch Management

---

6. Diagnostic Center Portal

Features

- Service Management
- Appointment Management
- Technician Management
- Report Management
- Patient Booking Management

---

7. Super Admin CRM

Dashboard

Overview

- Total Patients
- Total Doctors
- Total Orders
- Total Bookings
- Total Revenue
- Service Wise Analytics

User Management

- Patient Management
- Doctor Management
- Healthcare Partner Management

Booking Management

- Doctor Appointments
- Medicine Orders
- Lab Bookings
- Blood Requests
- Diagnostic Bookings
- Ambulance Bookings

Financial Management

- Wallet Management
- Refund Management
- Settlement Management

Support Management

- Ticket Management
- Complaint Management
- Escalation Management

Reports & Analytics

- Revenue Reports
- Service Reports
- User Reports
- Booking Reports

PHASE 2

Advanced Healthcare Ecosystem

Family Management Module

Features

- Add Family Members
- Family Member Linking
- Family Healthcare Records

Nominee Management Module

Features

- Add Nominee
- Nominee Relationship Management
- Nominee Contact Details

Responsible Contacts Module

Features

- Family Contact Management
- Friend Contact Management
- Emergency Contact Management

Health Records Module

Vital Monitoring

Features

- Blood Pressure Monitoring
- Blood Sugar Monitoring
- Weight Tracking
- Height Tracking
- BMI Tracking
- Hemoglobin Records
- RBC Records
- WBC Records
- Vitamin Records

Medical History

Features

- Chronic Disease Records
- Surgery History
- Allergy Records
- Hereditary Disease Records

Digital Health Records

Features

- PDF Report Storage
- Medical Image Storage
- Prescription Storage
- Historical Report Management
- Health Timeline

Donation & Healthcare Support Module

Public Donations

Features

- Donate to Patients
- Donation Tracking
- Donation History

Medical Crowdfunding

Features

- Campaign Creation
- Campaign Approval
- Campaign Contribution
- Campaign Tracking

Foundation Support

Features

- Foundation Donations
- Healthcare Assistance Programs

Final Deliverables

Mobile Applications

1. Patient Mobile Application

2. Healthcare Partner Application

Includes:

- Doctor Module
- Medicine Delivery Module
- Sample Collection Module

- Ambulance Driver Module
- Blood Bank Module
- Diagnostic Center Module

Web Portals

1. Pharmacy Management Portal

2. Pathology Lab Portal

3. Blood Bank Portal

4. Diagnostic Center Portal

5. Super Admin CRM

Third-Party Integrations

- Payment Gateway
- SMS Gateway
- Google Maps API
- Firebase Push Notifications
- Video Consultation API

Project Vision

One Healthcare Platform connecting Patients, Doctors, Pharmacies, Laboratories, Blood Banks, Diagnostic Centers, Ambulance Services, and Healthcare Partners to deliver accessible, efficient, and technology-driven healthcare services from a single ecosystem.
